order picking**

**Delivery of large  
bulk items\***

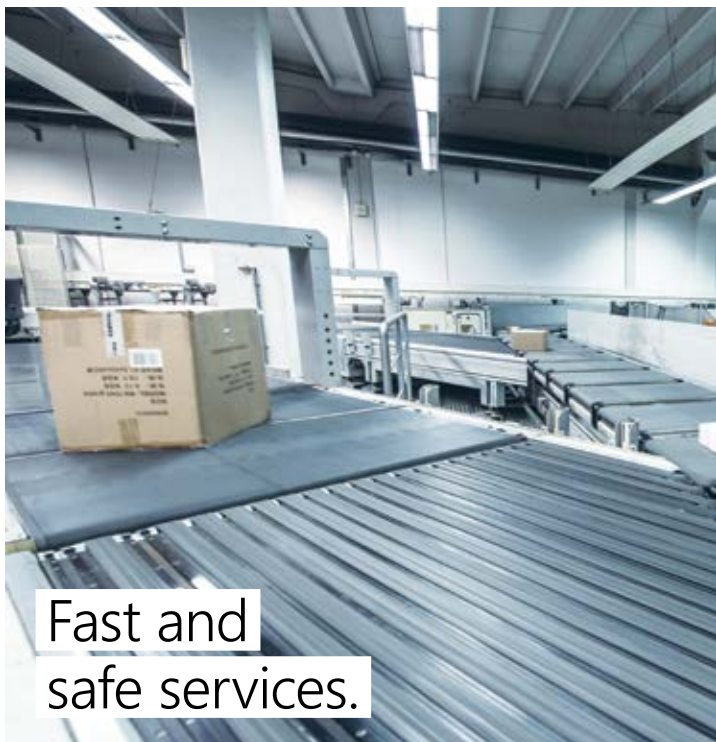

**Supply of retail  
chains**

**Daytime and  
night-time  
distribution**

\* Car parts, household appliances, furniture, etc.

Fast and  
safe services.

## **Logistics organisation within the Pošta Slovenije Group**

The main concentration of activity flows through the two postal logistics centres (PLCs), while the parcel transshipment post offices (PTCs) allow further intensive logistical processes. To provide even more comprehensive services, we store goods at two warehouses in Maribor and Ljubljana.

### **Pošta Slovenije Logistics includes the following services:**

- acceptance of postal items in Slovenia and abroad
- mail processing at:
  - Ljubljana PLC – approx. 22,800 m<sup>2</sup>
  - Maribor PLC – approx. 21,100 m<sup>2</sup>
  - Celje PTC – approx. 3,000 m<sup>2</sup>
  - Koper PTC – approx. 2,300 m<sup>2</sup>
  - Kranj PTC – approx. 1,300 m<sup>2</sup>
  - Novo Mesto PTC – approx. 1,000 m<sup>2</sup>

- warehouse operations (**warehouses:** Maribor Warehouse Logistics – approx. 3.500 m<sup>2</sup> and PS Logistics – approx. 22.000 m<sup>2</sup>)
- distribution to locations throughout Slovenia and abroad by agreed deadlines
- distribution to locations in the region
- return of postal items (return packaging, claims, etc.)
- acceptance of goods abroad and delivery in Slovenia

The organisation of international transport, customs brokerage, global door-to-door services with logistics support for comprehensive service is provided by our subsidiary Feniksšped d. o. o.

One of the largest  
warehouses in Slovenia!

### **Reliable and on-time transport**

special advantage is its central location and direct access to the Ljubljana bypass. Reliable and on-time transport of goods throughout Slovenia and Europe.

The support location is a warehouse on Tržaška street in Ljubljana, with more than 7,000 pallet spaces.

## **Warehousing in numbers**

## **Environmentally responsible**

Pošta Slovenije's services are inextricably linked with road use and environmental impacts. Environmentally-friendly vehicles make up part of the company's vehicle fleet. Its environmentally-friendly vehicle fleet and fossil-fuel powered vehicles that must comply with the highest environmental standards thus reduce CO<sub>2</sub> emissions. In line with the principle of social and environmental responsibility, the company is also adapting to new trends in the business environment by introducing new "green" vehicles to its vehicle fleet. The vehicle fleet currently includes 42 electric bicycles, 2 electric scooters, 34 electric delivery vehicles and 57 light electric four-wheeled vehicles. In addition to the positive environmental aspect, the introduction of electricity-powered vehicles also contributes to the humanisation of work in the delivery segment.
